

When You Think Of Me

Boris

You look so peaceful sleeping
You don't know that I'm leaving but I'm gone
Well I did my best to beat 'em, but in my head the
demons said move on, move on
You wake up you're gonna curse my name
As some time goes by I hope and pray

When you think of me
Remember the way that I used to be
Remember the times I held you tenderly
Remember the way that I love you

I think about the night I met you
I said I'd never will forget you, well I won't, won't
I think about the way you live and breathe beside my
dreams forever
You'll be better when I'm gone
Cause I know you're gonna fall in love again
I'm sorry this is how it has to end

When you think of me
Remember the way that I used to be
Remember the times I held you tenderly
Remember the way I love you, ooh
oooooooooh ooooooooooh ooooooooooh

I pick up my bags and turn around
I say a little pray and I hope somehow

Oh baby when you think of me
Remember the way that I used to be
Remember the times I held you tenderly ooooh
Remember the way that I love you oh

Oh baby baby baby baby when i am gone yeah he hee
Remember the times i held you tenderly ooh oh
Remember the way that I love you

That I love you
