

## In a Deeper World

Borknagar

Deify the universal coherence  
existence  
The progeny of subsistence  
bearer of man, the heirs of amend

Soak into the stellar magnitude  
Rise towards the sky

In a fiery union with nature  
as one with every creature  
Rove the windy mountains  
fall of man, drain in the sand

Rise towards the sky

In a fiery union with nature  
as one with every creature  
Rove the windy mountains  
fall of man, drain in the sand

...in a deeper world
