

Mary & Child

Born Against

Once again the battle field is your body and those who want control have laid
Down their terms in black & white and red all over they keep the backstreet
Butchers in business as advertised from a bullhorn and the all knowing man
Has set up his make-believe graveyard with tiny white crosses for millions of
Make-believe souls someday I'd like to see a cross set up for a real live
Human being who bled to death to maintain the sanctity of mary mary & child
Scream the bigots who couldn't care less about human life obey their self-
Righteous lies while your sisters & daughters die all decisions are final your
Body is forbidden
