

## Christborn

### Born from Pain

Oceans filled with blood of ages  
Centuries of eternal lies  
Churchwalls dripping with blood  
Never will I repent to your god  
Now who've become the fallen  
Who have abandoned  
the faith you've taught  
You've turned into the sinners  
Who've nailed your savior to a cross

Empty out the chalice  
So poisonous the blood  
Body of christ polluted  
Answer to your god

Your heavens layed to waste  
Still sin follows sin  
The dead scream out your name  
For their innocent blood is spilled

Confront your god  
Burn in hell...
