

## Final Nail

## Born from Pain

Murdered under blackened skies  
Bleeding from a thousand wounds  
Crushing through the edge of me  
Sworn vengeance ripping through  
As my heart pounds my chest like fists  
Branded in my soul to burn  
Biting the hand that feeds  
The price of lessons learned

I have emerged  
I will regain  
There's darker days  
Coming your way

...Get hammered down

Final nail in your coffin - no more regret  
Final nail in your coffin - embrace oblivion  
Final nail in your coffin - no more regret  
Final nail in your coffin - reborn to conquer
