

## The New Hate

**Born from Pain**

This is the new hate

The world just turns and turns  
Until we're mad with rage  
Pushing twisted visions  
Prelude to darker days  
Sliding down the steep road  
Crushing all our faith  
Beware what's taught this age  
This is the new hate

A downward spiral  
Dragging us down  
Descending further  
Till we hit the ground
