

## The Wolves Are Loose

**Born from Pain**

Rampage life sets the tone  
Everybody's on it's own  
All that's safe and all that used to be clear  
All security disappeared  
Fear and stress make their claim  
Right and wrong are lost along the line  
Fear and stress make their claim  
The Wolves are loose and they're out for blood!  
Remaining faceless, lurk in the dark waiting still!  
Remaining faceless, lurk in the dark to kill at will!
