

Foxes Mate For Life

Born Ruffians

Make a point of having fun
It'll help you get through life
"Life sucks and love is dumb"
Golly, that's a real lie

And I know
Foxes mate
For life because
They're in love

Learn as much as you can
Read a book, watch less TV
It's worth it in the end
Just take a look at me

And I know
Foxes mate
For life because
They're in love

Someone should terminate him
Before he infects the others
Don't let children have ideas
They might want a real life

And I know
Foxes mate
For life because
They're in love
