

I Need A Life

Born Ruffians

I'm looking down
So come help me up
And stumbling around
Trying to fill my cup
It's half empty
Been that way all my life
So come pour some in
And take me out tonight

The sun is shining but we stay inside
Oh but we go out at night
We stay in looking for a better life
Oh but we go out at night
We put up curtains, block out the light
Oh but we go out at night
And we stay in bed until we feel all right
Oh but we go out at night

I need meaning
I need a mission
I need a path
I need conviction
I need a life I've never had
I need much more good and much less bad

The sun is shining but we stay inside
Oh but we go out at night
We stay in looking for a better life
Oh but we go out at night
We put up curtains, block out the light
Oh but we go out at night
And we stay in bed until we feel all right
Oh but we go out at night

I found meaning
I found a mission
I found a lord
I found religion
I found something I never had
I'm not sure what but it's not half bad
And I'm glad
I'm so, so glad
Those party habits are gone & dead
I'm turning in my old sinful ways
For a dull new life so I can pray, pray, pray

The sun is shining but we stay inside
Oh but we go out at night
We stay in looking for a better life
Oh but we go out at night
We put up curtains, block out the light
Oh but we go out at night
And we stay in bed until we feel all right
Oh but we go out at night

I need a life
I've never had

I need so much more good, lord
And much less bad
