

I'm Happy

Bosson

I'm happy 'cause I found love
So happy 'cause I found real love
So happy, oh I wanna be with you be with you
I'm happy 'cause I found real love
So happy, 'cause I found real love yeah

Goin' alright, think that it's time for
Makin' it right, like it's supposed to
Baby it's true, now that I've found you
A feeling like there is no other
Way for me, to explain
Oh I wanna be with you, be with you
Goin' alright since I've got you
Baby I feel Baby I feel Baby I feel yeah

Baby it's time, for me to make you see
The reason I try to keep you by me
Nobody else do it like you do
Seen to be right whatever we do
No one else gets to me
Oh I wanna be with you, be with you
Holdin' on tight, baby it's time for
Lovin' all night loving all night lovin' all night yeah

Give it all to be together
We will never give up each other
Give it up for something better
Something that goes deeper, deeper than ourselves

Give it all up to be together, we will never give up each other
Give it all up to be together, give it all up to be together

[Chorus]
