

Over The Mountains

Bosson

I've made up my mind I've packed my bags
I'm not returning home, until someone will give me reason to
I lock the door and take a breath
I'm ready to let go, I know you're somewhere out there too
there's only one thing for me to do and I go

Over the mountains and over the sea
To find a heart that belongs to me
Anywhere in the world I go
Anywhere till I find you
I run through the valleys
I run through the fields
I'd do anything I am hard to please
And anywhere in the world I go
Anywhere till I find you

I fly like the wind, I don't know where my heart will
lead the way
I need someone to love and hold on to
but the road is long I've had my doubts
but nothing lets me down cause
I know you're somewhere outthere too waiting for me to get to y
ou and I go...

[CHORUS]

It doesn't matter what
The time will tell
Cause I will be here waiting
For you, for you and me
It doesn't matter what the others say
Cause I will keep on searching
And I go and I go and I go and I go...

[CHORUS x 2]
