## **Over The Mountains**

Bosson

I've made up my mind I've packed my bags I'm not returning home, until someone will give me reason to I lock the door and take a breath I'm ready to let go, I know you're somewhere out there too there's only one thing for me to do and I go Over the mountains and over the sea To find a heart that belongs to me Anywhere in the world I go Anywhere till I find you

I run through the valleys I run through the fields I'd do anything I am hard to please And anywhere in the world I go Anywhere till I find you

I fly like the wind, I don't know where my heart will lead the way I need someone to love and hold on to but the road is long I've had my doubts but nothing lets me down cause I know you're somewhere outthere too waiting for me to get to y ou and I go...

[CHORUS]

It doesn't matter what The time will tell Cause I will be here waiting For you, for you and me It doesn't matter what the others say Cause I will keep on searching And I go and I go and I go...

[CHORUS x 2]
