

Summer With You

Bosson

Do you remember our place where we used to meet
Down by the sea
And all the crazy plans we made
And the promises, we swore to keep
I was young and so were you
But we both could feel our love was true
There was nothing in this world
That we couldn't do....oh...

I'll go back in time, to when you were mine
I would trade my life for one more summer with you
I'll erase my mind, if I could rewind
I would trade my life for one more summer with you

Do you remember all the songs that you used to play
and I used to write, and all the fantasies we had
Of becoming stars, over a night
Now I am here and I am proud of
What I've achieved, on my own
But success can not replace you and without you,
I'm no one....

I'll go back....

I found my love when I was seventeen
And you, you were on fire, the queen of my heart
And we, we were on fire, fire invincible team
And we promised we would never part
But then one day in the beginning of fall
When the rain pushed the summer away
I went back to our place, and you were gone,
They told me that you left that same day.....

Oh...oh....

I'll go back.....
