

This Is Our Life

Bosson

Baby this is our life
And I still believe that love is the answer
This is our life

I sit alone on the balcony
In the middle of the night
And everything is calm
And everything is right

Thinking back on the time
I was depending on somebody
Tellin' me what to do
I know what to do

Because we're born with freedom
We can live our lives
The way we want
And just the way we feel

And if we follow our heart
We will discover the truth
For me, it's love
My love is true

Baby this is our life
I still believe that love is the answer
This is our life I still believe our love will last forever
This is our life
Baby this is our life
This is our life
We're heading into the future
But we're running out of time
And we're running out of gas
We forget why we're here

If we stop for a moment
Give it all up for care
I'm taking care of you
Take good care of me

Because we're born with freedom
We can live our lives
The way we want
And just the way we feel

And if we follow our heart
We will discover the truth
For me, it's love
My love is true

[CHORUS]

Take care of yourself
Be nice to your friends
And visit your relatives once in a while

Give love to your family

Take care of your baby
Don't be afraid to open your heart

[CHORUS]
