Long Way To The Bottom

Bourbon Crow

When you grow up in the country Somethings you can't change Never forget where you came from Respect your family's name

It's a long way to the top darling i ain't dumb But it's a longer way...To the bottom

Long way to the bottom

Live with my finger on the trigger Every damn day Living fast and dying young The american way

It's a long way to the top darling i ain't dumb But it's a longer way...To the bottom

Long way to the bottom
