

# Take A Bullet For You

**Bourbon Crow**

There are friends and there are acquaintances  
But who are gonna to call at four in the morning  
Like a friend who will hang out, at down the waffle house  
When you trying to sober up from the night before

Everybody needs a friend like that, one to share his last six p  
ack

A friend who will be there for evermore  
You need someone, who can make you shake the blues  
Brother to brother, a friend through and through  
Someone to talk too, when you don't know what to do  
Someone who'll take a bullet for you

Its last call, start a fight with the whole damn bar  
And you got on my back even thought you know were gonna lose  
I used my one phone call, down at the county jail  
Cuz I know I can count you to come and pay my bail.

Everybody needs a friend like that, one to share his last six p  
ack

A friend who will be there for evermore  
You need someone, who can make you shake the blues  
Brother to brother, a friend through and through  
Someone to talk too, when you don't know what to do  
Someone who'll take a bullet for you

Everybody needs a friend like that, one to share his last six p  
ack

A friend who will be there for evermore  
You need someone, who can make you shake the blues  
Brother to brother, a friend through and through  
Someone to talk too, when you don't know what to do  
Someone who'll take a bullet for you
