

Goodbye Friend

Bowling For Soup

He told everybody goodbye
He had a look in his eye
Like this could be the last time
I knew you were feeling down
I wish that I had been around more
Could I have changed things
Maybe I could have changed things

And it's the rainy days
That mostly remind me

Goodbye friend
I hope you found
The answers you were looking for
Goodbye friend
I don't think that you ever knew
That there was someone here
There is someone here
Who misses you

You were my biggest fan
Together forever and then
So many things I should've known
You were always there to help me along
And always there to sing my song
I wish I had told you
Man I sure hope I told you

And it's the rainy days
That still remind me
Yeah it's the crazy, crazy days
I need you here

Goodbye friend
I hope you found
The answers you were looking for
Goodbye friend
I don't think that you ever knew
That there was someone here
There is someone here

Selfishly I'm mad at you
For making me feel like this
I wish I could talk to you
Like I used to
And tell you that sometimes I hate you
For doing this to the people
That loved you so
They look at me like I'm supposed to know
And then I'm told

So thank you for saying goodbye
And letting me know we're alright
I hope that I deserved that

Goodbye friend
I hope you found

Whatever you were looking for
Goodbye friend
I don't think that you ever knew
Goodbye friend
I hope you found
The answers you were looking for
I don't think you ever knew
That there was someone here
There is someone here
Who misses you

Oh I miss you
God I miss you
I miss you
