

## Old Town Blues

Boy & Bear

To my aching glow  
You got a hold of me now  
How you rendered slow  
But harder than hell to my ground

I'm looking for my old mans' shoes  
I'm kicking off these old town blues

Just don't leave me here  
Cos' I just won't survive  
There's a raven hovering  
But he's keeping me alive

I've known him all my life  
He's the spirit of a young man mourning  
But like the shadow of a carving knife  
He's not the danger but the warning sign  
And we're kicking off easy

Hey  
I can't seem to move  
I'm paralysed  
I'm chocking on my holy mood

Cos I wanna be an old man too  
I wanna be a role model to my kids  
I wanna teach them how to love  
But you gotta show me how to live  
And we're kicking off easy
