

Feel The Vibration

Boy George

Tears in my coffee cup
Too much war
Not enough love
Dictators never went away
Feels like faith took a holiday
Feel the vibration
Feel the vibration

Freedom is in the air
You might die
But you just don't care
All you can do is pray
When violence feels like the only way
Feel the vibration
Feel the vibration

What can make me free
No false philosophy

Follow me to Tahir Sq
Hear the sound of freedom there
Follow me
Follow me
Down to Damascus
