

Girlfriend

Boy George

I came in here tonight
Just like all of you
Looking for some fun
Something nice to do

Yeah, something nice to do
I've got the feeling
You must be screaming
Your love is walking away

I've got this feeling
You must be screaming
But I just wanted to say
Girlfriend, everybody needs

A boyfriend
'cause when you've got
A boyfriend
You've got something

Else to do
I'm throwing down tonight
Just like all of you
I'm looking for some fun

Nothing less to lose
No, nothing else to lose
I've got the feeling
You must be screaming

Your love is walking away
I've got this feeling
You must be screaming
But I just wanted to say

Girlfriend, everybody needs
A boyfriend
'cause when you've got
A boyfriend

You've got something
Else to do
If you want to keep your man
Be a devil if you have to

Hold on to him girl
There are those that will
Defeat you
There are others that will leave

You dry
Go on girl
Take your love and wrap it
Around

The first sucker that you meet
What's the matter honey

Did your neck throw up
Just get off my face
