

## No Clause 28

Boy George

Won't you be elated  
To tamper with our pride  
They say to celebrate it  
is social suicide  
I'm not your average beat boy  
I'm not your rebel guy  
You want to make us hated  
You want to make us slide  
no clause 28  
Brother you're much to late  
I read about my future  
And it don't look like fun  
Now would you be so careless  
to give a fool a gun  
Don't need this legislation  
You don't need this score  
Don't need this facist groove  
just to show pornography the door  
Don't mean to be uptight  
I don't mean to be precious  
But tell me iron lady  
are we moving to the right?
