

We've Got The Right

Boy George

Saying sorry
Would mean I've apologised
And you know I was good to you baby
There were very few lies
Now that you ask me
I'm no saint inside
The same things you feel little darling
I don't try to hide
When I think about the laughter
Directed at me
I don't give a damn anymore
If they don't see what I see
We've got the right to love
We've got the chance
To make it work
We've got the right to love
Yes we got the right
Don't put the blame on me
I won't tell you no lies
Don't put the blame on me
Got no time for compromise
