

The Rebirth

Boy Hits Car

Rebirth

Immerse yourself in this moment
Think about our rebirth

So lets get connected
Lets get united
Lets run away out of these thousand tears man of structure
Oh I wanna get connected
So we can get electric
Devil said our soul's free dancing into rapture

Oh oh oh
Here comes the rebirth

Pushing outwards
From our swollen hearts
Its time to fuse ourselves with love
Set free the burning spirit
Cuz everyone seems cold and emotionless
I can smell the hunger taste the angry air
To ressurect this (?)

This is the rebirth

We'll find a place where you'll be holding to no one
Accept yourself so let them come and see us standing naked
Full of passion flowing inside out
Here to creation becoming one with present

So go get connected
I'm
Lets lock away morality you might be independent
Oh I wanna get connected
So we can get electric
Devil said our soul's free dancing into rapture

Immerse yourself in this moment
Think about our rebirth

Before we die
Before we die
Before I die
No
Before I die
No
Before I die

So lets get connected
Lets get united
Lets write away to accept that we are not different
I wanna get connected
So we can get electric
Devil said our soul's free dancing into rapture
Before we die
Before we die
Before I die

Cuz this is the rebirth
