Waltz For Pony

Time is such a hungry beast It swallows all my memories It makes all smells and colors fade It takes the ones I love away

You are my wildest wish come true I love the way you love and move me I had never dared to ask For this to come and stay and last

It's not just the two of us, we're three You, the hungry beast and me And it's starving but it can't attack I've put two saddles on its back
