

When the road is carved of yonder
I hope you see me there
It's in the water, it's where you came from
It's in the water, it's where you came from

When the crowd begin to wonder
And they cry to see your face

It's in the water, it's in the story
Of where you came from
Your sons and daughters in all their glory
It's gonna shape up
And when they clash and come together
And start rising
Just drink the water where you came from
Where you came from

Your road, it was cold from yonder
Never sold yourself away

It's in the water, it's in the story
Of where you came from
Your sons and daughters in all their glory
It's gonna shape up
And when they clash and come together
And start rising
Just drink the water where you came from
Where you came from

Where you came from
Oh oh where you came from

And when they clash and come together
And start rising
Just drink the water where you came from
Where you came from
