

# Crazy World

## Boys Like Girls

The world is moving at the speed of light.  
A million hearts are bouncing off a satellite.  
You got the answer in the palm of your hand,  
So many things that I don't understand.

It's a crazy world.

People talking through the video,  
Everybody's got their own damn TV show.  
Everyday we're on something new,  
And none of that is gonna get me closer to you.

I wanna just slow down,  
It's a crazy world.  
I wanna hold you now,  
Just the boy and girl.

Sitting on the porch swing late at night,  
Singing with the songs on the radio.  
I wanna just slow down,  
It's a crazy world.

Lining up to start another war,  
> But can you really tell me what we're fighting for?  
Stuck in the middle of a hurricane,  
I think the world's just might be going insane.

I wanna just slow down,  
It's a crazy world.  
I wanna hold you now,  
Just the boy and girl.

Sitting on the porch swing late at night,  
Singing with the songs on the radio.  
I wanna just slow down,  
It's a crazy world.

And I ain't gonna make the world change,  
I don't gotta win the rat race.  
I just wanna see your face tonight.

I wanna just slow down,  
It's a crazy world.  
I wanna hold you now,  
Just the boy and girl.

I wanna just slow down,  
It's a crazy world.  
I wanna hold you now,  
Just the boy and girl.

Sitting on the porch swing late at night,  
Singing with the songs on the radio.  
I wanna just slow down,  
It's a crazy world

It's a crazy world
