

## Heroine

## Boys

There was a lonely man  
A nobody you know  
Who didn't have a part  
In life's scenarario

But when he needed you  
You arrived on cue  
Like the heroine in a movie

This man without a part  
The man I used to be  
He couldn't get a break  
Until you hit the scene

And when he needed you...

We improvised the script  
We acted out our parts  
You took it from the top  
And played it from the heart

And when I needed you...
