Little Runaround

I've got no money, you're outta your tree
You wanted a fall guy, well that ain't me
I wouldn't mind saying, I think you should know
You give me a hard time, but that ain't so

Little runaround, little runaround, little runaround
Run to me
Little runaround, little runaround, little runaround
Run to me

I should have known better, what happened to me
Well I can put down to, history
But little lady, I want you to know
That when you get lonely, nowhere to go

Little runaround (little runaround can't you see)
Little runaround (little runaround can't you see)
Little runaround (little runaround you can)
Run to me

Little runaround (little runaround can't you see)
Little runaround (little runaround can't you see)
Little runaround (little runaround you can)
Run to me
