

Little White Lifeline

Boys

Little white lifeline
Little white lifeline
Little white lifeline
Little white lifeline all the time

You got me baby and you got me good
I got your number in my pocket book
My hands are shaking and my knees are weak
I took a taxi down to Berwick Street

I need you baby and I need you bad
And you`re the only friend I even had
You keep me going for another day
I couldn`t make it any other way

Little white lifeline - beating my heart away
Little white lifeline - up till the break of day
Little white lifeline - always on my mind
Little white lifeline all the time
