

# Monotony

Boys

When I saw you, walking down the street  
You looked the kid of girl, I`d like to meet  
The way you fit inside that dress  
How was I to know your mind was such a mess

Monotony that`s what you are  
Monotony you take it too far

You bore me, you bore me to tears  
One day with you seems like years  
From all accounts you`ve been that way  
Since that day that you were born  
Excuse me little girl, I`m about to yawn
