

Monotony

Boys

When I saw you, walking down the street
You looked the kid of girl, I'd like to meet
The way you fit inside that dress
How was I to know your mind was such a mess

Monotony that`s what you are
Monotony you take it too far

You bore me, you bore me to tears
One day with you seems like years
From all accounts you`ve been that way
Since that day that you were born
Excuse me little girl, I`m about to yawn
