

Nothing Ventured

Boys

People say you just can't be too careful
A bird in the hand I'm sure you know
Don't go lying on the bible
If you do then God will know

People can be very superstitious
Looking for the black cat on the road
Don't go walking under ladders
Look left and right before you go

I like walking under ladders
I always break my mirror shades
My eggs are always in one basket
Nothing ventured nothing gained

People say you just can't be too careful
Nailing horseshoes on your door
Don't forget to cross your fingers
Like you never did before
