Boys

I don't wanna work all day
I don't wanna dress in grey, no
I used to be keen, the brightest boy in school
Now it's all through, 'cause I'm lonely without you

I don't wanna work all day
I don't wanna dress in grey, no
I used to be keen, the brightest boy in school
Now it's all through, 'cause I'm lonely without you

It's just another
It's just another
Another lonely schoolday
It's just another
It's just another
Another lonely schoolday

I don't wanna work all day
I don't wanna make the grade, no
I used to be keen, the brightest boy in school
Now it's all through, 'cause I'm lonely without you

Yeah – yeah, yeah – yeah
Lonely schoolday
