

Turning Grey

Boys

People walking in the streets are turning grey
As they hurry by they fade away
Boredom everywhere in town
Boredom everywhere around
How no one older seems to care...

I'm gonna pack my bags today
Before my mind starts turning grey
Starts turning grey
The whole wide fucking world is turning grey

Every house along our street is turning grey
Flower gardens turn to stone and fade away
When the TV closes down
Lights out all around
How come no one older seems to care
