

Watcha Gonna Do

Boys

Hey boy what are you gonna do
Now that everybody's looking at you?
Hurry now you ain't got the time
Up front in the firing line

You gotta make your mind up right now
Any time any place any how
You gotta stand up to what's in front now
Watcha gonna do

Hey boy what are you gonna do
There ain't no future so you better make your mind up now
There ain't no future if you keep messin around
