

Bounce, Shake, Move, Swing

Boyz II Men

Bounce

All, all I wanna do is see your body move
I know you want it too
So what you gotta do
Can you smell the bass
Taste a little snare
The look upon your faces shows me that you're going there
Steppin' at your best
Clubbin' all night long
The sweat rolls down your chest
As you dance to the song

You want it, you need it
You can have it
So come on, go ahead

Bounce, Shake, Move, Swing

Oh girl why you doin' that
While I'm behind your back
You're gonna make me flip
And then I don't know how I'm gonna act

Bounce, all night long
Shake, 'til the break of dawn
Move, move that thang
Swing, see you swang
Bounce, up and down
Shake, to the ground
Move, oh so close
Swing, don't you know

You want it, you need it
You can have it
So come on, come on

If you want it, come and get it
You can have it baby if you need it
Won't you shake it like you want it baby
Can I have it
Can I get it baby
You make me want it
Cause I see it when you bounce it baby
