

First Love

Boyz II Men

The last kiss we shared tasted like our wine
Sweet and bitter like our memories
And I long for you to come right back to me
Ooh

Tomorrow the time will be the same as today
Nothing goes on in my heart except your memories
Where will you be and who will you think of?
Oh yeah

You were always gonna be my love
And you should know
Even if I fall in love with somebody else
I'll remember to love, you taught me how
You're always going to be the one
And for now, I'll still be singing this love song for
Somebody like you, my first love

Time after time, baby I tried
To forget about our life together
But the memories are so, so hard to let go
Ooh

Tomorrow the time will be the same as today
Trying to hold back the tears and thinking of you
All I want is to be with you once more

Said you will ohh
You will always be inside my heart
And you should know
That I wish I could've never let you go
I hope that I have a place in your heart too

Now and forever still the one
And for now
I'll still be singing this love song for
Somebody like you, my first love

Ooh

You were always gonna be my love
And you should know
Even if I fall in love with somebody else
I'll remember to love you taught me how
You're always going to be the one
I'll still be singing this love song for
Somebody like you, my first love
