Howz About It

Boyz II Men

(Hey, whassup, this is Michael. Just call to see what you guys going on this weekend. You know ever since I met you, I can't seem to let you go. Make sure you call me back. OK?)

Ever since the day that we first met Everything you do just seems to speak my interest Girl you know you piss right through my soul Make me wanna tell you things nobody knows yeah So here I am with heart in hand Your life have a mission for both you and I in these demands Wouldn't you like to take a trip with me Heaven knows just where this thing to lead

So howz about it You can just go away Howz about it We can leave today Howz about it No need to pack, I'll handle everything We can take a private jet Fly away We can fly, fly away

Listen Maybe you think it's a bit too soon I realize it's only than a week or two but Feels I know you all of my life And I wouldn't be surprised if one day you were my wife

So howz about it You can just go away Howz about it We can leave today No need to pack, I'll handle everything Take my jet, take my private jet And we can fly away Fly, fly away Don't even give it too much thought Just listen to your heart We can go anywhere you wanna go All you gotta is All you gotta is Let me know Howz about it
