

# So What

Boyz II Men

I thought my faith was gone  
And I was left so blind  
I put my best foot forward  
Still a step behind  
Underneath that bridge  
Where we wrote our names  
I wonder if it's still there  
And if a chance remains

For that feeling  
To be with someone who means it  
To give me some kind of reason  
To walk through the fire (To walk through the fire)  
'Cause I needed something I could believe in  
You and I was so near it  
But we drifted apart

(So what, so what)  
I know I'll be alright  
(So what, so what)  
But when I close my eyes  
I don't wanna let you, I don't wanna let you  
I don't wanna let you go

I used to dream out loud  
I used to midnight dance  
Lost a couple lovers  
Lost my common sense  
Though the water rises  
Though the bridges burn  
I know that I can love again  
'Cause of you I learned

That feeling  
To be with someone who means it  
To give me some kind of reason  
To walk through the fire  
'Cause I needed something I could believe in  
You and I was so near it  
Drifted apart

(So what, so what)  
I know I'll be alright  
(So what, so what)  
But when I close my eyes  
I don't wanna let you, I don't wanna let you  
I don't wanna let you go

(So what, so what)  
I know I'll be alright  
(So what, so what)  
But when I close my eyes  
I don't wanna let you, I don't wanna let you  
I don't wanna let you go

I wish tomorrow would come a little slower  
Wish that you would come a little closer tonight

Just for tonight
