

## To the Limit

Boyz II Men

I'll rub your back, wash your hair  
I'll do anything, I don't care  
I'll cook your food, buy your clothes  
To the limit I will go  
I will go

I guess you wonder where I've been  
I've been thinking about the perfect way  
To express my thoughts within  
You mean everything to me  
And I wanna be the only man  
To supply your needs

I await your precious kiss  
Gets my head when they spread sweet and wet  
Across my lips  
I respond to every single touch  
Got me open on your love  
Wanna give you so much

The things I do for you  
Take you out for a night on the town  
And after I'll run you some bath water  
With some bubbles  
Do you like bubbles  
I'll dry you off  
And lotion your body down  
You'd like that, wouldn't you  
I'll do anything you want me to  
You know I don't care
