

Just take a minute and catch the vibe  
Just take a minute and catch the vibe  
Just take a minute and catch the vibe  
Just take a minute and catch the vibe

Coolin' in the studio you know how the story goes  
Bobbin' our heads to the tune we're about to do  
It's a laid back swing thang  
The groove we feel is strong,  
We need peace here to get it on  
Having fun as we go, makin' sure the flavor shows  
Cause we're feeling alright  
Takin' our time to free our minds and have a ball, ya'll  
Everything's fine it ain't nothing to it cause  
We're gonna do it all, what are

We're just vibin' dancing the night away  
Groovin', vibin', don't stop until the break of day

In the basement music just right  
Nothing goin' down but the mellow sounds  
Of Mr. DJ's turntable's goin' round  
A mad sensation, a crew of women around sparks inspiration  
To set something off the right way to hear the people say  
That we're feelin' alright  
Takin' our time to free our minds and have a ball ya'll  
Everything's fine it ain't nothing to it  
'Cause we're gonna do it all, don't you know that

We're just vibin' dancing the night away  
Groovin', vibin', don't stop until the break of day
