

You Don't Know What I Feel For You

👑BOYZ

My heart is beatin' when I look in your eyes
I got the feeling it's like far you and I
When I touch your body I'm out of control
And I believe I can fly...yeah
I know I'm totally addicted to you
That's why I wrote this special song for you
I need you love just you by my side
And I pray every day...

I'm waitin' for you it's not and day
'cause there so much I didn't say
And I do give me not give to your heart
To the door (to the door) of the love

You don't know what I feel for you
I will do anything for you
I need you baby
I'm waitin' here for you
You don't know what I feel for you
I will do anything for you
Come on get my life
I want you by my side...
You are the only one I dreamin' of
My mum tell me what truth of your lies
My feel strong than the sun and the sky
I am shine so I cry...yeah

I'm waitin' for you it's not and day
'cause there so much I didn't say
And I do give me not give to your heart
To the door (to the door) of the love

You don't know what I feel for you
I will do anything for you
I need you baby
I'm waitin' here for you
You don't know what I feel for you
I will do anything for you
Come on get my life
I want you by my side...
You are the only one I dreamin' of
My mum tell me what truth of your lies
My feel strong than the sun and the sky
I am shine so I cry...yeah

Come on girl you that is true
I do anything
Come on girl you that is true
I'm waitin' here for you
Come on girl you know that is true
I do anything and I know yes I know
I will love you 'till the end of time

I'm waitin' for you it's not and day
'cause there so much I didn't say
And I do give me not give to your heart
To the door (to the door) of the love

You don't know what I feel for you
I will do anything for you
I need you baby
I'm waitin' here for you
You don't know what I feel for you
I will do anything for you
Come on get my life
I want you by my side...
You are the only one I dreamin' of
My mum tell me what truth of your lies
My feel strong than the sun and the sky
I am shine so I cry...yeah
