

# Centre of Gravity

Boyzone

When you fall too hard  
When you're bruised and scarred  
Wherever you are  
I'll find you

When you're weary and thin  
And your heart's caved in  
Whether near or far  
I'll find you

Whenever you feel like you've got nothing  
Baby remember something  
I'll always be  
Your centre of gravity

Whenever the world just don't make sense  
And your head is in a mess  
I'll always be  
Your centre of gravity

When you're lost and scared  
And there's no one there  
Wherever you are  
I'll find you

Stream and tears  
When your eyes won't clear  
Wherever you are  
I'll find you

So whenever you feel like you've got nothing  
Baby remember something  
I'll always be  
Your centre of gravity

Whenever the world just don't make sense  
And your head is in a mess  
I'll always be  
Your centre of gravity

If your stars are falling  
I'll put them back in your sky  
Yea, I'll always be there

Whenever you feel like you've got nothing  
Baby remember something  
I'll always be  
Your centre of gravity

Whenever the world just don't make sense  
Your head is in a mess  
I'll always be  
Your centre of gravity

I'll always be  
Your centre of gravity
