

## Stronger

Boyzone

Running out of options  
Running out of time  
Running out of easy ways of things to say  
Nothing left but goodbye  
Baby please forgive me  
If I act so surprised  
I thought that we were stronger than that  
I thought that we were stronger than that  
I thought that we would fight it a little harder than we did  
To find a way to just keep hanging on  
I can't believe it's gone

[Stephen]

I got to learn to take it  
I got to learn to breathe  
Right now I'm feeling faithless in graceless arms  
But I got to learn to believe  
That it happen for a reason  
But it's just too hard to see  
I thought that we were stronger than that [2x]  
I thought that we would fight it a little harder than we did  
Oh.

How do we get from there to nowhere [2x]  
How can you just stop and say you don't care [2x]  
When I know you used to do  
How come those just come so easy  
After all that we've been through  
I thought we were stronger than that [2x]  
I thought we would fight it a little harder than we did  
To find a way to just keep hanging on  
Oh  
Running out of options  
Running out of time
