

# Where Did You Go

Boyzone

Tell me where did you go?  
Tell me where did you go?  
Tell me where did you go?  
Hoping and praying maybe I'm mistaken  
That this feeling is all in my imagination  
Cos I, I never knew your love would change so fast  
I thought we'd built a love so strong to last  
Driving me crazy am I losing you  
Won't you tell me cos I need to know

Tell me where did you go?  
(we made a promise to be open now the secrecy)  
Where did you go?  
(you drive me crazy, can't imagine how it's hurting me)  
Where did you go?  
(although you're here with me it seems we've lost that chemistry)  
And I can't be in love on my own  
Where did you go?  
Tell me where did you go?

You said forever  
We'd cherish all our dreams together  
Seems like forever  
Forever since I felt the pleasure  
Oh girl,  
The pleasure holding you so close at night  
The times we used to talk by candle light  
(by candle light)  
There's something in the air you've been so cold  
Is there something that I need to know

[CHORUS]

I never knew your love would change so fast  
I thought we'd built a love so strong to last, girl  
Driving me crazy am I losing you  
Won't you tell me 'cos I need to know

[CHORUS]

(we made a promise to be open now the secrecy)  
(where did you go? where did you, where did you?)  
(you drive me crazy, can't imagine how it's hurting me)  
(where did you go? where did you, where did you?)  
(although you're here with me it seems we've lost that chemistry)  
(where did you go? where did you, where did you?)

[CHORUS to fade]
