

# Goodnight Louise

Boz Scaggs

Goodnight Louise  
It's lights out for me  
It was hot for a minute  
We were right down there in it  
But hey Lou c'est la vie

Sweet romance  
One last dance  
I should be moving on  
But they're playing our song  
I might Louise I just might

What's in a moon one lonely night  
What's in a heart that is true  
Some would say that means everything  
Don't mean a thing without you

So flies love  
And stars up above  
You were first but not the last  
You're the queen of my past  
Goodnight Louise.. goodnight

You were first  
But not the last  
You're the queen of my past  
Goodnight.. Louise.. Goodnight  
Goodnight
