

I Got Your Number

Boz Scaggs

I got your number
I know you're gonna be there when I call
I got your number
I'd say you aint got no choice at all
No no no no no

I took your head from lonely
Chased your pain away
I gave you more than loving
In my special way
I shocked you out of boredom
Made you a faithful wife
Gave you an education
On the facts of life
In you there's come a change
I'll be damned I got you trained
And thats why I.. I.. what I know

I got your number
I know you're gonna be there when I call
I got your number mama
No you aint got no choice at all
No no no no no no

Why listen to your girlfriends
When they can plainly see
That the boy that they call lover
Aint half the man as me
Hey I don't have to prove nothing
Long as you're satisfied
Cos if you need more loving
There's plenty more inside yeah
Just tell them I'm glad that he's my man
Something they'll never understand
That is why I....I...

I got your number
I know you're gonna be there when I call
I got your number baby
So you aint got no choice at all
I got your number girl
I know you're gonna be there when I call
I got your number mama
No you aint got no choice at all
No no baby oh baby baby baby

My hat goes off to you
For lovin me the way you do
Even though I know pretty baby that I..I..

I got your number
I know you're gonna be there when I call
I got your number mama
Said you aint got no choice at all
I got your number baby
No you aint got no choice at all
I got your number mama

Oh you know you better be there when I call

I got your number girl oh oh no
