

I'll Be Long Gone

Boz Scaggs

I'll be long gone
By the time you make up your mind
Gotta make my own way
Around the kinda misery I find

I'll send you my best
Of regards and the rest
I'll leave up to your own sense of time

Yes I'm gonna get up and make my life shine
I'm gonna get up and make my life shine
I've made up my mind... to make my life shine

I'll be high flyin'
By the time you come round to me
Today's a new day
Different from tomorrow you'll see

Good luck with your path
But it wasn't built to last
Or we might take it differently

I'm gonna get up and make my life shine
I'm gonna get up and make my life shine
I've made up my mind... to make my life shine

Good luck with your path
But it wasn't built to last
Or we might take it differently

I'm gonna get up and make my life shine
I'm gonna get up and make my life shine
I've made up my mind
yeah yeah yeah yeah yeah yeah
I'm gonna get up and make my life shine
I'm gonna get up and make my life shine
I'm gonna get up and make my life shine
I'm gonna get up and make my life shine
Get up... yeah yeah yeah
