

# What Is What

Bracia

It starts out like a murmur  
But then it grows like thunder  
'Til it bursts inside-a you.  
Try an' hold it steady,  
Wait until you're ready.  
Any second now will do.  
Throw the door wide open,  
Not a word is spoken,  
Anything that you wanna do yeah.

You know. An' you know. An' you know.  
An' you know. An' you know. An' you know.  
An' you know. An' you know. An' you know.

Now don't you feel the same way?  
Now don't you feel the same way?  
But you don't know what to do~eah.  
No time for hesitatin',  
Ain't no time for hesitatin'.  
All you got to do is move.  
They say you're feelin' blue, well  
I've just found a cure.  
It's a thing you gotta do-yeah.

You know. An' you know. An' you know.  
An' you know. An' you know. An' you know.  
An' you know. An' you know. An' you know.

Now listen: Well ya say your body's achin'?  
Well I know that it's achin'.  
Chill bumps come up on you.  
Yeah the fun 'n' foolin',  
I love the fun 'n' foolin'.  
Just like foolin' after school.  
An' then ya ask for mediciation.  
Who cares for medication  
When you've worn away the cure.

You know. When you know. When you know.  
When you know. When you know. When you know.  
An' you know. When you know. When you know.

Oh yeah.  
Oh yeah.  
Oh yeah.

Hey-ha, hey, hey.  
Hey-ha, hey, hey.  
Hey-ha, hey, hey.

Go back to the country,  
Yeah, go back to the country.  
Feel the change is good for you.  
When ya keep convincin',  
Ah don't keep convincin'  
But what's that creepin' up behind-a you?  
It's just an old friend,

It's just an old friend  
And what's that he's got for you?

You know. An' you know. An' you know.  
An' you know. An' you know. An' you know.  
An' you know. An' you know. An' you know.

Hey-yeah. Hey-yeah.  
Can feel it. Yeah,  
Can feel it. hey-yeah  
Feel it. hey-yeah.  
Feel it. Yeah,  
Feel it. hey-yeah.v Feel it. Ohhh  
Feel it. medication,  
a-medication,  
medication
