

## Green Apples

Bracket

I really don't like the taste  
Of all those green apples  
They don't seem to go away  
I am tired of seeing  
All of those green apples  
I run into everyday

They are the cause of my troubles and pain  
They are the reason for the wind and rain  
I wish they all were dead  
Why can't I just paint them red
